#### **MAYORS MESSAGE**

Over the last 45 days Wells Bridge has been closed so that we could construct a new and improved bridge with two lane capabilities so that vehicle safety and improved usability for all residents and travellers. I am happy to say that the new work progressed much quicker than expected and as such the bridge was opened earlier than scheduled. Please note that traffic controls are still in place, and closures are still necessary between 8am and 4pm Monday – Friday until further notice. This upgrade will make a huge difference for travel

through the north west of the shire and will assist with traffic flow and demand.

I would like to thank the residents of the Benjeroop, Lake Charm and Murrabit areas who have been affected by the closure for their patience and hopefully they will make full use of the new bridge for many years to come. I would also like to thank the Federal Government, contractors and our staff for getting this done in a timely manner. Council is currently completing its four year Council plan and with the help of the community, who have provided excellent feedback and ideas, we can now put in place a Plan that will see the communities of the Gannawarra Shire grow and prosper. Thank you to everyone that has contributed and we will have a draft Plan out for further consultation shortly.
